

RockeTalk Partners with LG to Pre-Load Social Networking Application For India Mobile Phone Users

Latest version of RockeTalk now offers IM chat feature in addition to full-featured end-to-end mobile social network

Delhi, India – November 3, 2008 – RockeTalk, a leading Mobile 2.0 provider of easy-to-use, mobile social applications, today announced a key partnership with LG Electronics India in which the RockeTalk mobile social networking application will be pre-loaded on all new LG KT610 and KF750 (Secret) mobile phone models. These LG phones, pre-loaded with RockeTalk, are already available to consumers through LG retailers in India in November.

The partnership agreement also includes pre-loading of the RockeTalk application on several other LG mobile handsets in India throughout 2008 and 2009.

More good news for users - the latest version of the RockeTalk application to be pre-loaded on these LG mobile phones now includes a multiple Instant Messenger (IM) chat feature compatible with Yahoo, Google Talk, MSN, AIM and ICQ.

“LG mobile phone users will be the first in India to benefit from easy access to the rich mobile social networking, messaging, IM chat, community, and content capabilities of RockeTalk,” said Anil Arora, Business Group Head, Mobile, PCs and DAV, LG Electronics India Pvt. Ltd. “LG continues to enhance our customers’ lifestyles by bringing them fun and easy features through our latest LG mobile phone models.”

“We are proud to be partnering with LG, one of the leading and most progressive mobile phone brands in India” said Jim Greiner, President and CEO of RockeTalk. “RockeTalk is now the only application in India that provides both mobile IM chat *and* a full-featured end-to-end mobile social network with voice, photo, and video messaging, communities, and user-generated and professional content.”
